## ABOUT:

A highly motivated and versatile individual with hands-on experience in **Web Development**, **Data Analysis**, and **UI/UX Design**, complemented by intermediate skills in **Data Structures & Algorithms** and strong **problem-solving** capabilities. I've also explored the creative side through **video editing**, allowing me to blend technical skills with design thinking. My ability to quickly learn, adapt, and deliver across multiple domains makes me a valuable asset for any team seeking both innovation and execution. I aim to contribute to impactful projects and help drive growth through technology and user-focused solutions.

## EDUCATION:

<b>Odisha University of Technology and Research, Bhubaneswar</b>	Bhubaneswar
Degree in B.Tech in Information Technology	2022 - 2026

<b>Saraswati Sishu Vidya Mandir</b>	Jatani
Degree in Matriculation	2019
Percentage: 80%	

## EXPERIENCE

<b>DigitalBhem</b>   Full-Stack-Web-Developer	Remote   July-2024 - August-2024
<ul style="list-style-type: none"><li>During my month-long Full Stack Web Developer internship at DigitalBhem, I spearheaded the development of a comprehensive hotel management and booking website, utilizing HTML, CSS, JavaScript, and React to craft a responsive front-end interface</li><li>My responsibilities extended to the backend where I implemented core functionalities with MongoDB, designing flexible dummy dataset that enabled interactive hotel listings and seamless booking capabilities adaptable for users across any year</li></ul>	

## SKILLS

<ul style="list-style-type: none"><li>Programming Languages: Python, Java</li><li>Libraries/Frameworks: JavaScript, React, PowerBi, Figma</li></ul>	<ul style="list-style-type: none"><li>Tools / Platforms: GitHub, VS code</li><li>Databases: SQL, MongoDB</li></ul>
---	--

## Projects / Open-Source

<b>1. Hotel Management and Booking Website   <a href="#">Link</a></b> (HTML, CSS, JS, React, MongoDB)
<ul style="list-style-type: none"><li>Delivered a functional hotel management and booking website within one month, employing HTML,</li></ul>

CSS, JavaScript, and React to build the user interface

- Utilized MongoDB for the backend and developed an interactive, year-agnostic dummy database to power hotel listings and booking features

## **2.WanderIndia:Evokes a Sense Of Travel and Exploration | [Link](#)**

(HTML,CSS,JS,React,MongoDB)

- Built a multi-faceted website to promote Indian tourism and culture, providing users with an engaging platform to discover tourist spots via an interactive map, learn about regional cuisines, and explore city-specific attractions
- Currently developing an e-commerce extension to enable local artisans to sell their products to a global audience, fostering economic empowerment and international awareness of Indian craftsmanship

## **3.Sales analysis & sales forecasting by integrating sentiment analysis using VADER" | [Link](#)**

(Google Colab,Python,Deep learning)

- Developed a hybrid sales forecasting model integrating SARIMA, Prophet, Bi-LSTM, and VADER sentiment analysis to enhance prediction accuracy
- Utilized NLP techniques to analyze customer reviews, achieving an 18% reduction in MAE and improved RMSE, demonstrating the impact of sentiment data on forecasting

## **4.Personal Portfolio | [Link](#)**

(React,Tailwind CSS,Styled Components, React Icons, EmailJS )

- Developed a responsive and interactive personal resume website using React. Integrated animations with Framer Motion, contact form using EmailJS, and modern UI design with Tailwind CSS and styled-components

## **Certifications**

---

- Introduction to Frontend Developer - IBM Data
- Analyst - Deloitte.
- Python Essentials - Cisco
- Networking By Cisco - Cisco
